

## :: Network Communications

Remote Maintenance Technologies (RMT) has designed, implemented and supported a wide range of communication systems including local and wide area networks, employing various communication protocol, topologies, and architectures. Our RMT technical service team is fully equipped and ready to troubleshoot and resolve most network issues. Our communication expertise ranges from simple peer-to-peer layouts to elaborate networks involving various hardware, protocols and architectures.

### Products / Services Provided:

- Ethernet/IP
- ControlNet
- DeviceNet
- Calibrations
- Data Highway +
- Fiber/Switches/Routers
- Remote I/O
- RSNet Worx
- CsCAN Network
- PROFIBUS
- OEM Supported
- Fiber Optic Expertise
- Technically Proven
- Scalable Systems

### Some of our other services are:

**Automation Controls**

**e-Commerce Parts**

**Generator Programs**

**Installation & Commissioning**

**Process Instruments**

**SCADA Systems**

**Software Support**

**Support Central**

**Technical Services**

**Training Programs**
