

:: Process Instruments

Remote Maintenance Technologies (RMT) has developed an expertise, and is fully capable of supporting a wide range of process control instruments and devices, including MTS tank level gauges, Milltronics ultrasonic transducers, Smith flow meters, Limitorque actuators, along with most thermocouples, RTD's, temperature transmitters, pressure sensors, pressure transmitters, temperature controllers and many other devices. Our comprehensive network of manufacturers, suppliers and distributors provide field access to direct replacement parts, specifications and technical support.

Products / Services Provided:

- Flow Meters
- Valve Actuators
- Thermocouples
- Temperature Transmitters
- Pressure Sensors
- Pressure Transducers
- Ultra-Sonic Transducers
- Mass Flow Meters
- Variable Frequency Drives
- Proximity Switches
- OEM Supported
- Process Control
- Loop Troubleshooting
- Device Programming

Some of our other services are:

Automation Controls

e-Commerce Parts

Generator Programs

Installation & Commissioning

Network Communications

SCADA Systems

Software Support

Support Central

Technical Services

Training Programs
