

:: Professional Services

Remote Maintenance Technologies (RMT) is a professional technical services organization providing quality goods and services to a broad base of industries, customers, systems and applications. Specializing in automation controls, and technically capable in many disciplines, RMT currently supports several major customers in the transportation, food, pharmaceutical, energy and environmental management industries. RMT hosts and manages 'Support Central' a collaborative SharePoint web-site, providing our customers with centralized maintenance management, without a costly investment. RMT can **customize a service plan to best fit your overall technical support needs, which may include:**

- Maintenance Contracts
- 24 Hour Emergency Support
- Preventative Maintenance
- Project Management
- System Upgrades
- Remote Monitoring
- Web-Based Services
